## Selbstbremsende Handkurbel-Winden CE und GS geprüft

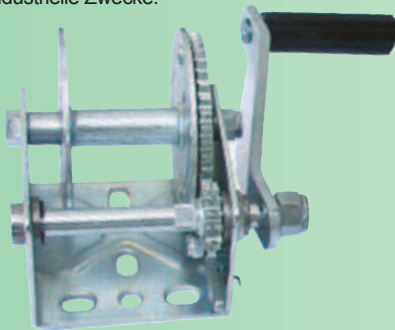

Diese Winden sind aus Stahl gefertigt, gelb verzinkt und halten durch eine selbsthemmende Sicherheitsbremse die Last ohne Eingriff auf die Handkurbel sowohl beim Hochziehen als auch beim Zuwasserlassen. (Lt. GS nicht zum Heben und Befördern von Personen). Die angegebene Zugkraft ist berechnet bei rollender Last und 30% Steigung.

### Winch Strap 50 mm

Code	Loading	Length	Preis
236812	2000 Kgs	6m/20ft	7,50 €
236825		7,5m /25ft	8,09 €

Pass the pin, supplied with the strap, through the hole of the drum, at the spur gear's side and then through the strap loop (picture 1). Screw the bolt to secure the pin on the drums (picture 2).

### Trailer Winch, 3 way, single gear, galvanized auch in Niro lagernd

The Seaware winches are made from corrosion-resistant, galvanized steel for longer life. All winches feature a comfortable handle, 3 positions (forward, neutral and reverse) for safe use and a gear ratio (4:1 – 5.1:1) that maximizes the user's strength. Seaware winches' capacity ranges from 636kgs to 1135kgs.

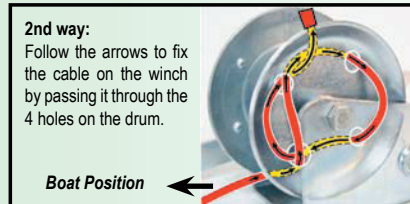

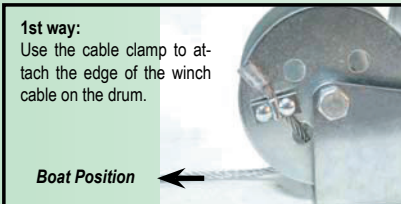

Code	Capacity	Gear Ratio
11880	1400 lbs / 636kgs	4:1
11881	1800 lbs / 815kgs	5,1:1
11882	2500 lbs / 1135kgs	5,1:1

### Winch cable with hook C\* 8,70 €

Code	Loading	Length	Diameter
236820	1700 Kgs	9m/30ft	5 mm

There are 2 ways to attach the winch cable on the winch.

### What is a trailer jack?

A trailer jack is a telescopic pole with a wheel at the end. It is mounted on the frame of the trailer so as to easy load and un-load the trailer from the ball hitch as well as raising the trailer to a proper angle.

### Use:

When you want to release the trailer from the ball hitch, start turning the swivel of the jockey wheel clockwise to lower the wheel. Continue as such until the later reaches the ground and supports the frame of the trailer. It is then safe to unlock the coupling from the ball hitch.

When you want to tow the trailer, lock the coupling on the ball hitch and start turning the swivel counterclockwise. The wheel gradually raises and the frame of the trailer will be supported on the ball hitch. Keep turning the swivel until the wheel is raised completely.

### Safely Tips:

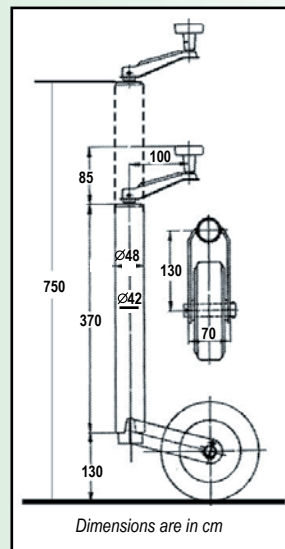

- Ensure that you have completely raised the wheel before towing.
- When cranking or coupling trailer, secure trailer from rolling with chocks on both sides.

### Jockey Wheel

The Seaware jockey wheel is made from high quality steel and features rubber wheel for maximum support of the frame of the trailer. It can reach up to 750mm max. height while the min. height is 500mm.
