

Terhi Baby Fun

- glides smoothly behind a sailboat or can be transported on davits
- light and easy to row, lift and tow
- stable and safe
- lockable stowage under the seat for oars and other equipment
- ideal for leaving on your mooring as it is rainwater draining

Small is beautiful

Ideal as a tender for a larger vessel or as a starter boat for the family's future sailors. The Terhi Baby Fun is the smallest member of our rowing boat family, but as far as performance goes, larger than its name suggests.

Terhi 385

– the number one rowing boat!

Since 1978 40.000 units of Terhi 385 have been produced, making it perhaps the most popular rowing boat through all times in Europe. A reliable boat for rowers of all ages, it has deserved its success, meeting all the needs and requirements of the boater. With Finland's favourite rowing boat, you can safely set off to go fishing, to visit a neighbouring island or to call in at the local village shop.

Terhi 440

– for heavy loads

The Terhi 440 provides plenty of room for large loads. This boat, designed for demanding use and mature tastes is ideal as a transport craft or fishing boat as it will not rock when casting nets and hauling in a catch. Thanks to its broad beam, the Terhi 440 is extremely stable and safe, even when carrying larger groups of people.

Terhi Saiman

- traditional rowing boat with great carrying capacity and stability
- two rowing stations and room for an outboard motor
- lockable stowages fore and aft
- adjustable centre seat

A rowing boat in the traditional vein

The Terhi Saiman is a traditional Finnish rowing boat à la Terhi! Its doubly strong ABS thermo-plastic construction resists grounding knocks and dents considerably better than wooden or fibreglass boats and is easy to maintain. Its shape enables it to slip through the water easily by rowing or by outboard motor.

- a perfect, environmentally-friendly boating package
- takes a noiseless and easy-to-maintain electric motor
- up to three hours of running time between charges

Terhi Saiman Sunwind

A new kind of eco-boat

Noise-free, no polluting emissions, no fuel costs. The Saiman Sunwind is a truly eco-friendly choice. The electric outboard motor of this eco-boat, a result of our broad-minded attitude towards product development, derives its energy from solar power. A natural choice for lazy summer days and stress-free fishing trips.

- Standard equipment:
- Pair of oars
 - 40W solar panel
 - Cabling and connections
 - Electric impulse regulator
 - 107 Ah AGM maintenance-free accumulator and accumulator box

Terhi Nordic 6020

- a safe all-weather fishing boat
- a moulded-in fish-well with drain as standard
- large, multi-purpose open area
- fore and aft lockers

The Fisherman's friend

The Nordic 6020 has been expressly designed with the fisherman in mind. Classic design and modern accessories combine in this craft modelled on traditional fishing boats. Thanks to a central open area, you can move about safely and freely while fishing. The Nordic 6020 also has a high freeboard and it is extremely stable, as a fishing boat should be.

NEW!

Terhi 475 Twin C

Preis ab 9.550,00 € inkl. Mwst

- The twin consoles give good protection from wind and spray
- Specially reinforced, unsinkable ABS triple-layer construction
- Well-designed stowage space
- High level of standard equipment such as powder-coated stainless steel railings and a stylish double console arrangement
- Large choice of accessories

Flagship of the Terhi line

475 Twin C is the first Terhi boat with a double steering console and the new flagship of the range. In addition to the new console arrangement there are many other fresh and clever design solutions such as the generous stowage space in the boat. Two consoles with windshield and handrails provide good protection from the wind and spray yet the visibility from both the pilot's and co-pilot's seat is excellent. Also a canvas used between the consoles is included in the standard equipment. The stern canopy available as an accessory is lowered and folded into a covered space behind the rear seat, which is also suitable for storing a paddle and light mast.

Length	475 cm
